The Beechcraft Super King Air 200 is the most popular and successful business aircraft ever built. Once you fly in ours, you'll understand why. At 300 mph and nearly 30,000 ft you probably won't notice that our Super King Air 200 features the most reliable turbine engines in the world, the Blackhawk Pratt and Whitney PT6A. The luxurious "squared-oval" cabin provides plenty of headroom and legroom from up to 9 passengers in plush leather seating. In addition our Super King Air 200 is equipped with an aft enclosed lavatory with flushing toilet for your comfort. Experience why everyone loves the 200 and its crew!

CSM Aviation is a registered member with both Wyvern and the National Business Aviation Association. CSM Aviation flights are operated under \_\_\_\_\_ Certificate Number 17MA981L
